SUMMARY

A determined Informatics student at Institut Teknologi Bandung with a strong passion for using technology to create positive social impact. I enjoy doing teamwork and am committed to continuous personal growth and meaningful contribution.

EDUCATION

Bachelor of Informatics Engineering, Institut Teknologi Bandung **Aug 2023 - Present**
• Current GPA of 3.56/4.00

PROJECTS

Developer, BidBunny - Blockchain Auction Platform

- Developed a decentralized auction smart contract on Base Sepolia using Solidity and Hardhat.
- Integrated IDRX (ERC-20) and implemented a Pull Payment pattern to ensure secure, DoS-resistant user refunds.
- Engineered a Hybrid Settlement (Escrow) system to lock funds and NFT assets
- Tech Stack: JavaScript (Node.js), Hardhat, Ethers.js

Web Developer, Nimonspedia - Mock Web Marketplace based on Tokopedia

- Architected a hybrid multi-backend e-commerce platform using PHP (Legacy) and Node.js (Real-time) with React SPA for the modern UI.
- Engineered real-time features including a live auction bidding system and a chat module using Socket.io and WebSockets.
- Implemented secure JWT-based authentication for the Admin Dashboard and managed Feature Flags to control application modules dynamically.
- Optimized application performance to achieve a Google Lighthouse score of ≥ 80 for performance and ≥ 90 for accessibility and best practices.
- Tech Stack: PHP, Node.js (Express), React, PostgreSQL, Docker, Nginx, Socket.io, Tailwind CSS

Developer, OWCA Logistics - Desktop App for Logistics Management

- Designed and implemented a dynamic plugin architecture that supports hot-swappable modules via dynamic class loading.
- Applied Model-View-Controller (MVC) patterns and Role-Based Access Control (RBAC) to ensure a scalable and secure management system.
- Managed data persistence using JSON serialization
- Tech Stack: Java 17, JavaFX, Maven, Jackson (JSON), CSS3.

Developer, Student Status Classifier - Artificial Intelligence

- Developed a multiclass classification model to predict student academic status
- Conducted extensive Exploratory Data Analysis (EDA) and data preprocessing
- Implemented and compared performance across Logistic Regression, Support Vector Machines (SVM), and Decision Trees
- Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

Developer, Applicant Tracking System - CV Analysis Automation

- Integrated multiple algorithms to provide high-speed, multi-pattern keyword searching.
- Implemented Fuzzy Matching to handle typos and improve search accuracy in document parsing
- Ensured data privacy by developing a custom encryption system for sensitive applicant information stored in MySQL
- Tech Stack: Python, MySQL, PDFMiner, Regex

EXTRACURRICULAR EXPERIENCE

Deputy Minister of Work Accountability, Kabinet KM ITB

Jul 2025 - Present

- Oversaw and audited the OKR (Objectives and Key Results) of programs across all ministries within the KM ITB Cabinet

Deputy Head of Welfare, Himpunan Mahasiswa Informatika (HMIF) ITB

Apr 2025 - Mar 2026

- Assisted in managing 30+ staffs and interns focused on supporting student well-being and member services within HMIF ITB
- Identified student needs and provided responsive solutions through welfare-related initiatives and support channels

Speaker, HMIF Leadership Class 2025

Sept 2025

- Invited Speaker for the HMIF Leadership Class, presenting to an audience of 100+ on the intersection of leadership and event operational
- Facilitated an interactive session that translated complex management theories into practical steps for planning and executing large-scale events

Chairman, Sekolah Perangkat Mentor OSKM ITB 2025

May 2025 - Aug 2025

- Led the leadership development program for over 70 OSKM mentors
- Designed and oversaw training curricula focused on leadership, facilitation, project management, and student engagement

Chairman, Wisuda April Himpunan Mahasiswa Informatika (HMIF) ITB

Feb 2025 - Apr 2025

- Led a committee of 100+ members to plan and execute the April graduation ceremony for HMIF ITB
- Set project direction, managed timelines, and facilitated inter-division communication to maintain clarity and alignment throughout the preparation process
- Supervised budgeting, resource allocation, and stakeholder coordination to ensure an efficient and well-organized event

Head of Mentors, Kaderisasi Wilayah STEI-K ITB 2024

Dec 2024 - Jan 2025

- Led the coordination, training, and performance management of 50+ mentors responsible for guiding 300+ new students through different majors in the faculty
- Collaborated with various committees to ensure a supportive, structured, and impactful experience.

SKILLS

- **Hard Skills:** JavaScript; TypeScript; React.js; Next.js; Tailwind CSS; Python; Java; C++.
- **Soft Skills:** Teamwork; Public Speaking; Leadership; People Development
